Auditor Networking Program

The Australasian Land and Groundwater Association (ALGA) Auditor Special Interest Group (Auditor SIG) is a national representative body, with members from all States and Territories in Australia. The Auditor SIG was formed by ALGA to represent and promote statutory contaminated land Auditor interests throughout Australia – although Auditors have different titles in different States, we will use the generic term "Contaminated Land Auditor" in our communications as representing all the different titles ascribed in each State and Territory. One of the five Auditor SIG purpose statements is to *"Support Auditor and Auditing Continuous Improvement"*.

It is acknowledged that Auditors operate across a range of different companies, from tier one consultants who employ several Auditors, to a single Auditor who is self-employed. Recognising the various levels of support available to the Auditing community, the Auditor SIG is launching an informal Auditor Networking Program.

The aim of the Program is to connect appointed Auditors with like-minded professionals located within the jurisdiction in which they operate. This initiative is not intended as a means to seek professional advice on projects but rather as an opportunity to connect with one or more Auditors who understand the journey, pressures, and challenges faced in day-to-day work life.

Through the Program you will be given the name and contact details of one or more Auditors, it will then be over to you to organise the first meeting. This could be a Microsoft Teams call or a coffee at a local café.

If you feel you could benefit from the Program, the first step is for you to contact the Auditor SIG Chair Mr Jonathan Thom, via email (jthom@nationpartners.com.au) or mobile phone (+61 448 977 540). Approval will be sought prior to sharing your contact details with another Auditor.

Refer to ALGA *Disclaimer Statement* regarding any discussions held as part of Auditor SIG Networking Program.
