REMTECH Europe

NO CHARGE PROGRAM 2025

Participation is FREE with registration. Scan the QR code to view the program and eventually to sign up with a valid email. The Zoom link will be sent to your registration email around 7 days before the event.

MONDAY 15 SEPTEMBER 2025

1	Policy and Research on Soil Pollution	
2	Soil-Matters - Sustainable Materials Reuse	
3	ITVA Nachhaltigkeit bei der Altlastensanierung (in German)	
4	In Situ Adsorption and Destruction Technologies	
5	In-Situ Thermal Remediation	
6	Sustainable Solutions for Soil Pollution: Legal, Scientific, and Nature-Based Approaches	
7	PFAS Introductory Training	
8	Soluciones sostenibles para la descontaminación y restauración de suelos y aguas subterráneas (in Spanish)	
9	Pump & Treat Optimization Training	

TUESDAY 16 SEPTEMBER 2025

10	Site Assessment for Vapour Intrusion	
11	Management of contaminated sites in Africa	
12	Soil Passports for Demonstrating Circular Economy in Soil Reuse	
13	Agroécologie et santé des sols (in French)	
14	PFAS Site Screening and Initial Characterization	
15	Moving Sites to Closure for Petroleum UST Releases	
16	E3460-24 – Standard Guide for Climate and Community Mapping	
17	Responding to Industry Needs in Standards for Microparticles and Microplastics	
18	Safe and efficient reuse of wastewater	

WEDNESDAY 17 SEPTEMBER 2025

19	Mining Legacies: Assessment, Risk, and Recovery		20	PFAS Under the Lens: Science, Solutions and Society – H2020-SCENARIOS	
21	SOILL Project		22	Solutions for POPs and Pesticides	
23	In Situ Soil Remediation		24	Circular Economy Solutions for Environmental Remediation	
25	Business Opportunity in Ethiopia, Uganda and Ruanda		26	Brownfield Redevelopment and Urban Regeneration	
27	Soil Health and Emerging Contaminants		28	AI and Data Innovations in Remediation	
29	Bioremediation for Challenging Environments				

THURSDAY 18 SEPTEMBER 2025

30	Innovative Microbial Solutions for Environmental Remediation: Technologies and Strategies from the NYMPHE Project		31	PFAS Soil Remediation	
32	Phytoremediation Strategies for Contaminated Soils		33	Groundwater remediation	
34	HRSC and 3D Site Characterization		35	LIVE DEMO	
36	PFAS Management Strategies		37	Chlorinated Solvent Remediation	
38	PFAS Water Treatment		39	Sustainable Strategies for Pollution Management	

REMTECH Europe

FRIDAY 19 SEPTEMBER 2025

40	Industrial Emission Directive 2.0 in Action: Evolution, Challenges and Tools for Implementation		41	Integrated Strategies for Soil bioremediation	
42	New hazard classes under the Classification, Labelling and Packaging (CLP) Regulation		43	Human Health and Environmental risks	
44	Business opportunity in Brazil, Road to COP30		45	Biochar Applications in Soil Remediation	
46	Waste-Based Approaches for Soil Recovery		47	Diagnosis, Risk Assessment and Rehabilitation of Environmental Impacts	
48	Aquatic Ecosystem Restoration Strategies		49	Smart Farming and Climate Solutions	
50	CCS - Carbon Capture and Storage				

24- 25 SEPTEMBER 2025

	Sustainathon 2025	

REMTECH Europe
