Practical Contaminated Site Management and Regulation

A series of three one-day online courses, designed specifically for Councils in consultation with Council Environmental Health officers, planners and contamination specialists.

WHEN

- 11 February 2026 (Module 1)
- 18 February 2026 (Module 2)
- 25 February 2026 (Module 3)

WHO IS THIS FOR?

Environmental Health, Planners, Council land managers, Council contaminated land specialists, any other Council staff requiring general contaminated land awareness.

- Modules 1 and 2 are suitable for learners from any Australian State or Territory and New Zealand.
- Module 3 is highly NSW focussed.
- All three cover the needs of Metropolitan, Regional and Rural councils.
- No prior knowledge is required.

COST

$750 per day, with discount of 10% for two days and 15% for three days. Additional 3% off for EHA and ALGA members.

WHAT IS COVERED?

Module 1: Contaminated Land Principles

- Gain an introduction and overview of causes and effects of contaminated land, common contaminants and contaminative land-uses in rural, regional and metropolitan settings.

Module 2: Investigation, Remediation and Reporting

- You'll develop the skills needed to efficiently and effectively review consultant reports.
- This module covers the stages of contaminated land assessment, remediation and management and what to expect of reports in each stage.

Module 3: Better Contaminated Land Regulation

- Learn more about the use of the NSW regulatory regime available to Councils for regulation of development and pollution control.
- This module deals with powers and duties, the roles of NSW EPA and Site Auditors, and how to write effective and enforceable development consent conditions.
