# UNEXPLODED ORDNANCE (UXO) SIG

## OUR AIM

The purpose of the UXO SIG is to strengthen the UXO industry and provide a forum to address the unique needs and aims of the industry nationally and internationally for the benefit of the community of practice. This will be done through:

- Advocating for approaches that align with better practices, promoting safety and quality in the industry;
- Establishing UXO Industry safety, quality, accreditation and training standards;
- Promotion and education of the role, scope, and importance of UXO services by connecting with other stakeholders, associations, government;
- Represent the UXO industry to influence and further develop government policy;
- Sharing of information to promote UXO Industry better practices; and
- Facilitating UXO Industry networking, engagement, and increased communication.

## 2025-2026 COMMITTEE

- Bianca Iversen

- Brett Garrett
- Craig Rochester
- Dave Humphreys
- Felicia Mellors
- Jo Cuttler
- John Halmarick
- Mike Ransom
- Paul McCabe
- Sean O'Rourke
- Shaun Barry
- William Rowlands

## FOCUS

The ALGA UXO SIG has achieved a milestone this year with the development of a Voluntary Code of Practice (VCoP) for Off-Estate UXO Works. The plan for 2026 is to present VCoP to state working groups and industry stakeholders. This collaborative effort aims to enhance best practices, safety and consistency across UXO operations off the Defence Estate.
