VAPOUR AND GAS SIG

OUR AIM

- The group is committed to the development and promotion of vapour intrusion and ground gas best practices from investigation through to remediation stages for application to land development, contaminated land and landfill projects.
- The VG SIG vision is to promote the understanding and application of the vapour intrusion and ground gas investigation, risk assessment and mitigation; to improve the awareness and knowledge of this specialist area.

WHO ARE WE?

A range of vapour and gas specialists from across the industry, with a passion for improving the field for the next generation.

2025-2026 COMMITTEE

- Daniel Hodges
- James Coley
- David McFadden
- Samuel Willis
- Barton Jr Bauzon
- Nick Simmons
- Judith Barnes
- James Lucas
- Thurlow Thurlow
- Luke Finley
- Adrian Heggie
- Aidan Marsh
- Dr Brent Davey
- Darren Hanvey
- Tom Mackie
- Ella Sandrini
- Mark Challoner
- Mark Walker
- Matt Mullins
- Molly Brown

WHAT ARE WE UP TO?

The VG SIG has been hard at work creating training and learning opportunities for the wider industry:

- Chlorinated Hydrocarbons Groundwater Fate & Transport Symposium February 2024 Adelaide
- Vapour and Gas Symposium March 2025 Melbourne

- Advanced Ground Gas training session April 2025 Sydney
- NEPM Update E chronicle September 2025
- QAQC Document
